

Film activate: What is beauty?

1

In this film, the Beast is actually a prince who has been cursed, losing his good looks and transformed into an elusive, terrifying monster. Some of the objects in his castle are also people who once worked for him. Imagine you've been placed under a curse and have been transformed into an object. What would you be and why? Draw a picture of yourself in your new state.

2

Beauty is a quality that means a lot beyond appearance. Sometimes, we do not take the time to appreciate someone beautiful, simply because of the way he or she looks. Have you ever known anyone who has felt rejected by the way they look, or simply by being different? What other words besides respect and friendship could you use to make this person feel better and included?

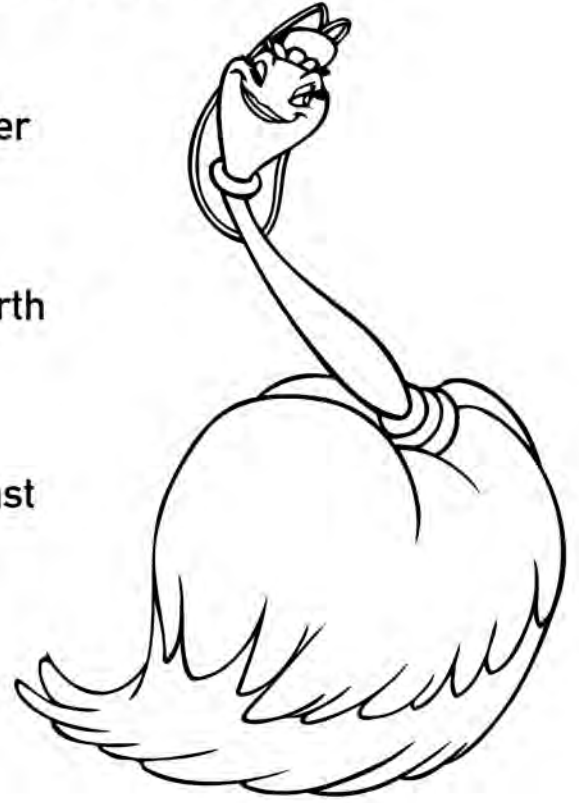

3 Match the characters with their names. Which one is your favorite, and why?
