Music is a very important element in this film. Sung jazz, gospel, and classical music interpretations set the mood for different scenes. Find and listen to Corrina's and Manny's favorite song interpreted by two different singers: Corrina's favorite, Billie Holiday and Manny's favorite, Louis Armstrong. What instruments do you hear? How does each interpretation of the same song make you feel? Write your answers and draw an emoticon inside each headphone.

According to Centers for Disease Control and Prevention (CDC), secondhand smoke (SHS) exposure causes lung cancer and cardiovascular and respiratory diseases in non-smoking adults and children, resulting in an estimated 46,000 heart disease deaths and 3,400 lung cancer deaths among U.S. non-smoking adults each year. Molly watches a commercial and learns that cigarettes can kill people. The, she hides her father's and Corrina's cigarettes. The film is set in 1959 and smoking was a popular way of life then. Laws about not smoking in public places did not pass until the late 2000s. Let's help Molly find a smoke detector to install at home so she knows right away when they are smoking.
